## [Show Off Your Style]

[Select a photo and then, on the Picture Tools Format tab, apply a picture style or scale photos to a specific size.]

[Photos and graphics supplement your text with illustrative content and add visual interest to the design of your brochure.]

[With photos of people, remember that a reader's eyes tend to follow the gaze of the person in the picture. Draw your readers into your content by placing people photos so that the person in the picture is looking into the page – or toward the content – not off the page.]

## [About Us]

[This is a great place for your 'elevator pitch.' If you only had a few seconds to pitch your products or services to someone, what would you say?]

## [Another Headline]

[Add another quote here about your business, about your clients, or about specials that you wish to highlight for all to read quickly!]

[Not presenting a product that you want to quote? Consider using this space for a summary of services or a couple of your best customer testimonials.]

“[Large quote goes here.]”

## Title or Heading Here

[In this panel, you can highlight even more information about your organization! Tell the audience why you are the best! Don't be shy! Share, explain, and tell us what makes your company so great!]

[Plenty of text will fit in any of these panels. Simply add your own text.]
